

A SPECIALIST RANGE OF HIGH QUALITY MASONRY SDS DRILL BITS

Applications:

- For drilling masonry substrates; including, concrete, block and brick

Benefits:

- The tip is manufactured from European sourced hammer grade tungsten carbide which gives extended life even in the hardest materials
- Evo plus tip has a twin cutting edge that gives increased holes per charge when using battery power tools and the ability to drill multiple materials
- The drill bodies are manufactured from European sourced 34CrNiMo6 which ensures durability
- The drills are heat treated to 45/55 Rockwell in a controlled atmosphere furnace which also carries out the brazing process
- Easy fit into SDS+ drill machines
- The drill body is precision machined to Bosch and PGM specifications
- The tip is assembled centrally to Bosch and PGM specifications
- The drill bits are straightened to 75% above PGM tolerance targets. This ensures a smoother drilling action with less machine stress and less vibration
